### **Forum on ATM Technologies and Multimedia Applications on the Internet**

The Centre for Internet Exchange Technologies (CIXT) of The Chinese University of Hong Kong is to hold its first Industry Forum on ATM Technologies and Multimedia Applications on the Internet on this Thursday on campus.

The Forum aims to provide ISPs, access providers, content providers, Internet application developers and end user groups chances to voice their offerings and needs specifically with respect to the high bandwidth capacity and other benefits provided by ATM technology. They can also share the views and experience with Internet experts.

You are cordially invited to send a representative to cover the Forum. Details are as follows:-

Date : August 29, 1996 (Thursday)

Time : 9:00am - 4:00pm

Place : Level 5 Auditorium,  
Ho Sin Hang Engineering Building  
The Chinese University of Hong Kong, Shatin.  
(Agenda of the Forum and the campus map are attached)

Enquiry: Perry Yu of CIXT at 2609-8356
