新聞稿 PRESS RELEASE

Enthusiastic Response to CUHK's Nursing Degree Programme

The Chinese University is to launch a Bachelor of Nursing Degree Programme in the coming September. Application for admission has started and the general response is good. Over 1,000 application forms have already been obtained by interested persons.

It has come to the attention of the University that the authorities in some hospitals or medical institutions are conducting a "screening" process with a view to sponsoring nurses to take this nursing programme. The University wishes to clarify that it is not a University requirement that applicants must be sponsored by the hospitals or units in which they are working. All registered nurses with a minimum of two years' experience are eligible to apply, and their applications will be given due consideration by the University.

The Bachelor of Nursing Degree Programme is designed for registered nurses to upgrade their nursing skills and provide better career prospects. A new Department of Nursing will be formed within the University's Faculty of Medicine, which will offer two-year full-time or three-to-four-year part-time degree courses. Applicants can apply either the full-time or part-time programme according to their own choices.

Nurses who are interested can obtain an application form in person or by mail [with self-addressed and stamped (\$1.10) return envelope] at:

Admissions Section  
University Administration Building  
The Chinese University of Hong Kong  
Shatin, New Territories.

The application deadline is February 28, 1991. For enquiries, please call the Admissions Section at 6952257.
