新聞稿 PRESS RELEASE

Professor Kenneth Young, Professor of Physics at The Chinese University of Hong Kong will deliver his Inaugural Lecture on Friday, March 22, 1991 at 5 pm in Lecture Theatre LT 6 of the Lady Shaw Building at the University. Professor Young will speak on "Disorder and Dissipation in Physics". All are welcome.

Professor Young specializes in theoretical physics and has published numerous academic papers on various aspects of the subject. One of his current research projects is the quantum mechanics of dissipative systems, and the application of these ideas to optics, cosmology and condensed matter physics. Some of these topics will be covered in the lecture.

Professor Young is a graduate of the California Institute of Technology, USA. He obtained his BS in Physics in 1969 and PhD in 1972. He worked at Princeton University for one year before he joined The Chinese University as Lecturer in Physics in 1973. He was promoted to Senior Lecturer in 1981 then to Reader in 1985. In August 1989, he was appointed as Professor of Physics.

March 18, 1991

Dear Editor,

Professor Kenneth Young, Professor of Physics at The Chinese University of Hong Kong will deliver his Inaugural Lecture on "Disorder and Dissipation in Physics" on Friday, March 22, 1991 at 5 pm in Lecture Theatre LT 6 of the Lady Shaw Building at the University. It would be most appreciated if you could send a reporter and/or a photographer to cover the Lecture.

Yours faithfully,

Clara Lee (Mrs)
Information Officer
