新聞稿 PRESS RELEASE

The Council of The Chinese University of Hong Kong announces the appointment of Professor S W Tam as Head of Chung Chi College and Professor C Y Lee as Head of United College, both for a term of four years effective August 1, 1988 succeeding Dr Philip Fu and Professor T C Chen respectively, who will have completed two terms of College Headship by July 31, 1988.

Professor S W Tam, BSc, BSc (Hons), MSc (University of Hong Kong), PhD (University of Nottingham), JP is currently Professor of Chemistry and Dean of the Graduate School of The Chinese University. He joined the University as Lecturer in Chemistry in 1965, and rose to the position of Senior Lecturer in 1970, Reader in 1978, and Professor in 1982. He has had a long association with Chung Chi College, having served as its President from August 1976 to February 1977 and then as its first Head of College from March 1977 to July 1981. Since last year he has also taken up the Acting Directorship at the University's School of Education. Professor Tam has served on many Government Committees including the Medical Development Advisory Committee, Board of Education, the Hong Kong Examinations Authority, the Provisional Hong Kong Council for Academic Accreditation and the Rehabilitation Development Co-ordination Committee. He is also a past Chairman of the United Christian Medical Services Board of Directors and currently Chairman of the Alice Ho Miu Ling Nethersole Hospital.

Professor C Y Lee, BSc, MSc, PhD (University of British Columbia), joined the University as Lecturer in Biochemistry in 1972, was promoted Senior Lecturer in 1978 and then Reader in 1981, and since 1985 has served as Professor of Biochemistry. Apart from teaching and research, Professor Lee has rendered a wide range of services to the University. He was appointed Chairman of the Board of Studies in Biochemistry in 1978 and has on many occasions been Acting Head of United College. Professor Lee holds membership of various professional bodies including the Federation of Asian and Oceanian Biochemists, American Association for the Advancement of Science, and the New York Academy of Science.
