CUHK Produces Liquid Solution to Distinguish
Kwai Kou from Wei Ling Sin

The Chinese Medicinal Material Research Centre (CMMRC) of The Chinese University has succeeded in producing a liquid solution to distinguish the toxic Kwai Kou from Wei Ling Sin. A demonstration session will be held next Monday (April 1) whereby a spot test will be carried out to distinguish the two kinds of Chinese herbs concerned. Details are as follows:

Date: April 1, 1996 (Monday)
Time: 2:30 p.m.
Venue: Room E202, Block Rm University Science Centre
(Please see campus map attached)
Representing CUHK: Dr. Paul P.H. But, Director, CMMRC

Enclosure: Campus map
Press Enquiry: Miss Annie Wan, University Information & P.R.
Office at 2609 8896 or pager 7116 8822 a/c 6633
