

新聞稿 PRESS RELEASE

一九八八年十二月十三日

林教授現任美國哈佛醫學院微生物學及分子遺傳學教授，曾為多份世界知名學報撰寫科學論文，其研究範圍包括細菌基因表達的進化及細胞的運輸作用。此外，林教授並致力促進生物工程技術在商業上之應用與發展。

林教授又將於明日（十五日）下午六時卅分在喜來登酒店明廳主持另一次公開講座，講題為「生物工程未來的投資機會」，該講座由香港生物化學學會主辦。

香港中文大學生物化學系及生物系將於十二月十九日（星期一）上午十時卅分在中大銘澤堂第二講室聯合主辦公開講座，由美國哈佛大學著名科學家林繼儉教授用英語主講「生物工程與基礎研究的緊密關係」。歡迎各界人士蒞校聽講。

The Departments of Biochemistry and Biology of The Chinese University of Hong Kong will jointly present a public lecture by Professor Edmund C C Lin, a renowned scientist from Harvard University, USA.

The lecture entitled "Biotechnology: Its Close Interactions with Basic Research" will be held on Monday, December 19 at 10:30 am in Room L2, R C Lee Lecture Hall on the University campus. The lecture will be conducted in English. All are welcome.

Professor Lin will also deliver a public lecture on "Biotechnology: Not Too Late to Join the Race" tomorrow (December 15) at 6:30 pm in the Ming Room, Sheraton Hotel. The lecture is organized by the Hong Kong Biochemical Association.

Professor Lin is presently Professor of Microbiology and Molecular Genetics, Harvard Medical School. He has published many scientific articles in world renowned journals. Areas of his research interest include evolution and regulation of bacterial gene expression, construction of bacterial strains with novel metabolic activities and transport of small molecules across plasma membranes. In addition to his academic activities, Professor Lin has been actively involved in the commercial application of biotechnology
