新聞稿 PRESS RELEASE

The First Conference on Recent Developments in Statistical Research aiming at studying the latest results and trends of statistical research will be held at the Science Centre of The Chinese University of Hong Kong from December 15 to 17, 1990.

The Conference, organised by The International Chinese Statistical Association, will be attended by some 160 Chinese and foreign statisticians from China, Taiwan, USA, Canada, Singapore and Hong Kong. The Conference will provide participants with 24 sessions of lectures in which more than 100 papers will be presented. The papers cover a wide range of topics including mathematical statistics, social & economical statistics and biostatistics. It is expected that this historic conference will contribute a lot to the development of statistical research and education.

The International Chinese Statistical Association was established in 1987, with the aim of strengthening the co-ordination and academic interflow among Chinese statisticians from different parts of the world in order to foster the development of statistical research and application.

December 13, 1990

Dear Editor,

You are cordially invited to send two reporters/cameramen to cover the opening ceremony of the Conference to be held from 8:30 am to 9:00 am on Saturday, December 15 at Room L1, Science Centre in the University. Speeches will be given by Professor Charles K Kao, Vice-Chancellor of CUHK, Professor Grace Yang, President of International Chinese Statistical Association, and Professor Y S Chow, Chairman of the Conference's Organizing Committee, at the Ceremony.

Should you require further information, please feel free to contact Mrs Alice So, Information Office at Tel: 6952359.

Clara Lee (Mrs)
Information Officer
