新聞稿 PRESS RELEASE

Faculty of Engineering to host press briefing

The two-year-old Faculty of Engineering of the Chinese University of Hong Kong has recently moved into its built-purpose new home -- the 10-storey Ho Sin-hang Engineering Building -- which groups together all its departments under one roof.

The building houses some of Southeast Asia's most advanced research laboratories in telecommunications, electronics, computer science and industrial automation.

A press briefing will be held tomorrow (Dec 14) to highlight the latest developments of the Faculty and some of its outstanding research projects. This will be followed by a light lunch and laboratory tour. Details are as follow:

Date : Dec 14, 1993 (Tuesday)

Venue : Room 607, Ho Sin-hang Engineering Building, Chinese University
(see attached map)

Speakers : Professor Omar Wing, Dean of Faculty of Engineering
Dr. Jimmy Lee, Lecturer, Computer Science Dept.
Professor Vincent Lum, Chairman, Systems Engineering Dept.
Professor Ian Wilson, Chairman, Electronic Engineering Dept.
Dr. Wong Wing-shing, Acting Chairman, Information Engineering Dept.

Programme :

11:30 am - Professor Omar Wing to speak on the Faculty's mission, goals,
12:15 pm strength and strategies in terms of teaching and research

Followed by highlights of interesting research projects by departmental representatives

Question-and-Answer Session

12:15 pm - Light lunch
1:00 pm

1:00 pm - Laboratory tour
2:00 pm

Transport : A mini-bus will depart for the Ho Sin-hang Engineering Building from the University Train Station at 11:10 am and 11:20 am

Enquiry : Mrs Shirley Kwok, Information and Public Relations Office (609-7294)
