香港中文大學肝臟移植手術

香港中文大學醫學院於一九九一年十二月十五日在沙田威爾斯親王醫院成功地為一名女病人完成肝臟移植手術。

接受是項手術的病人現年六十歲，患末期肝硬化病症，移植的肝臟來自一名四十歲死於腦溢血的女士。

移植手術進行了七個小時，過程非常順利，目前病人情況良好，在威爾斯親王醫院深切治療部接受護理。有關查詢請致電六三六二六二三外科學系系主任李國章教授。

一九九一年十二月十六日

THE CHINESE UNIVERSITY OF HONG KONG

Liver Transplantation

The Faculty of Medicine of The Chinese University of Hong Kong has performed a liver transplant operation on a woman at the Prince of Wales Hospital on Sunday, December 15, 1991.

The 60 year old patient suffered from end stage liver cirrhosis and received the liver from a 40 year old lady who died from brain haemorrhage.

The successful operation went smoothly and took seven hours. The patient is now well and is recovering in the Intensive Care Unit of the Prince of Wales Hospital.

For details/enquiries, please contact Professor Arthur K C Li, Chairman of the Department of Surgery (Tel: 6362623).
