The Chinese University of Hong Kong recently received from the Swedish Consulate General a collection of books about the Nobel Prizes.

The books in 25 volumes have been specially selected to commemorate the 25th Anniversary of the University and contain information on the Nobel Prizes, presentations, biographies and full texts of lectures given by the Nobel Laureats at the Nobel Ceremony as well as lectures given by representatives from the Nobel Foundation during the period 1963-1988. It is the first time such books have been donated to a local tertiary institution.

At a brief presentation ceremony which took place in the University yesterday (December 15), Mr Christer Jacobson, Consul-General of the Swedish Consulate General presented the books to Professor Charles K Kao, the Vice-Chancellor of the University.
