March 6, 1993

ENVIRONMENT WEEK TO HEIGHTEN AWARENESS IN ARCHITECTURAL SCHOOL

Environmental issues will be highlighted in a week-long series of events organised by the Department of Architecture at the Chinese University of Hong Kong from March 7 to 13 to raise consciousness among students and teachers.

Concerned with the future of the natural and the built environment, the department will explore ways to better integrate environmental and energy factors into the teaching curriculum.

Lectures, seminars, workshops and public forums will be held to examine a wide range of environmental issues. Speakers include Legislative Councillor Ms Christine Loh; Director of the Environmental Protection Department, Dr. Stuart Reed; Director of the Friends of the Earth, Ms Mei Ng; Dr. Simon Chau of Green Power; Mr. James Buchanan, who attended the Earth Summit in Rio De Janeiro; and Fulbright scholar and lawyer with the University's Centre for Environmental Studies, Ms. Julie Bloch.

The events are open to the public and other institutions. For further information, please call Miss Florence Lee at 609-6552.

For press enquiries, please contact Mrs Shirley Kwok or Miss Annie Lam of the Chinese University's Information Office at 609-7294 or 609-7267 respectively.
