新聞稿 PRESS RELEASE

Dear Editors,

The International Cell Research Organization (ICRO) under UNESCO (United Nations Educational, Scientific and Cultural Organization) will present a special symposium for the first time in Hong Kong on Thursday, August 25, 1994 at The Chinese University of Hong Kong. Members of the ICRO executive committee, which include world renowned cell research scientists, will talk on recent advances in cell biology and exchange views with local medical and biological science scholars. Major topics at the public Symposium, include regulation of cellular antioxidant defense to tackle the aging problem and protein kinases and cell division related to cancer control, etc. A programme of the day is attached.

Details of the opening ceremony are as follows:

Date: Thursday, August 25, 1994

Time: 8:45 am

Place: Cho Yiu Conference Hall

G/F, University Administration Building, CUHK

Speakers: Prof S T Chang, Professor of Biology, CUHK
Prof Charles K Kao, Vice-Chancellor of CUHK
Prof D Mazia, ICRO President

You are cordially invited to send a representative to cover the above Symposium. For further details, please contact Mr Ali Li (6098895) of CUHK's Information & Public Relations Office or Dr P K Wong, Senior Lecturer of CUHK's Department of Biology (6096383).

August 23, 1994
