The Mong Kwok Ping Computer Communication Laboratory of The Chinese University of Hong Kong formally opened yesterday (March 18) in a brief ceremony held on the University campus.

Mr William Mong, Chairman and Senior Managing Director of the Shun Hing Group, officiated at the Ceremony which was attended by over 50 guests, many of whom were from the telecommunication sector. Mr Mong, who has in the past been a most generous supporter of The Chinese University, donated a sum of HK$1 million to the University in May 1987 for the establishment of the laboratory.

The new laboratory, with an area of 90 sq m, is situated in the Electronics Department on the ground floor of the North Block of the University's Science Centre. Housing advanced equipment, the laboratory will enable the University to further develop research and teaching activities in information technology.
