新聞稿 PRESS RELEASE

Professor Wang Yuan, President of the Chinese Mathematical Society and formerly Director of the Institute of Mathematics, Academia Sinica, Beijing has arrived in Hong Kong in early April for a month-long visit at The Chinese University of Hong Kong as the Wei Lun Visiting Professor to the University's Department of Mathematics. During his visit, Professor Wang will conduct seminars and talks for students and staff of the Department. He will also deliver a public lecture on "Mathematics in China - present situation and development" in Putonghua on Saturday, April 27, at 11:15 am in Lecture Theatre LT6, Lady Shaw Building of the University. All are welcome.

Professor Wang graduated from Zhejiang University in 1952. From 1953 onwards he stationed at the Institute of Mathematics of the Academia Sinica and had worked closely with the world-renowned Chinese mathematician, Professor Hua Luogeng for more than 30 years.

Professor Wang has made significant achievement in his research on the famous mathematical problem "the Goldbach Conjecture" and "Diophantine Equations". He is the author of numerous academic papers, monographs and books including Applications of Number Theory to Numerical Analysis.

Professor Wang's visit to The Chinese University is sponsored by the Wei Lun Visiting Professorship/Fellowship Scheme which invites eminent scholars in the world to visit the University and give Lectures. The Scheme was established through a generous donation by the Wei Lun Foundation.
